

Assignment Rubric: Data Science Lab 4 Data Visualization

Question Number	Total Points	Deductions:
1	3	-3: They don't plot the line.
2	5	-2: They don't have any code plotting the different columns. -3: They don't justify their result. Note: This one is subjective, so if they justify it, just give them full credit.
3	2	-1: They don't read the data frame in from the CSV. -1: They don't print the data frame header.
4	5	-2: They don't group the bathroom durations by 24-hour periods (days). -3: They don't create the boxplot plotting the distribution.
5	5	-5: They don't share something else they found out about the cat's bathroom behavior.

Total Points: 20
